Tom Foley, Tammany leader of the crime, let the papers publish it. I will do it again for any other voters in this

"The men live in this district, that is, three of them do, and are voters here. They are not enrolled members of this dub, but I bailed them out because they are voters in my district, as I would any other voter in trouble.

That is the way I maintain their respect, and also show that I have respect for them when they are in trouble.

There is nothing to this talk from the other club that we sent them around to beat the piace up. They are yelling around there because they are up against it. They have hung out a distress figs.

"The fact of the matter is, these four boys got to drinking, and they went into the Home Rule Club with a member of that organization. What happened was merely a frolic. Three detectives have been looking all day for the member of Rofrano's club who took the men in there, but have not been able to find him.

It hailed them out—if that is a chest, with liquids of various specific.
